## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 5-10 and 13 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5-10 and 13 have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4, 11, 12, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. It is unclear to the examiner as to that is released and what is held. The holding portion can be locked in an open position and in a closed position. The claims do not specify what configuration is considered released and locked. In other words, the configuration in fig. 1b is in an end position that can be considered locked, and fig. 1c can be considered released from that particular end position.
